Subscribe

1) Register and Sign In
The "Register" link will take the user to the "Registration" page (see wireframe "New User Registration")

The "Free Live Events" link will link to the "Live Events" page (see wireframe "Live Events")

The "Sign In" link is for registered users. An existing user clicks here to enter their email address and password. The following is an example of the layer popup:

Sign In

Email Address:

Password:

X

Forgot your Password?

Forgot Your Password

Enter the email address you used to create your account. Your password will be emailed to you.

Email Address:

X

Once a user is registered and logged in, the message will change to the following:

My Account | Log Out

The user can update their account by clicking "My Account" (see wireframe "My Account").

2) Checkout and Number of Items
The site will track the number of items added to the user's shopping cart (see wireframe "Shopping Cart"). The user has the ability to checkout at anytime during a site visit.

3) Video Player List
This list will be populated with no more than 4 video clips (dependent on design layout). Video clips can be a from a DVD, an athlete profile, an upcoming event, etc. Each video clip will display the following data fields:

- Title
- Short Description with character limit (TBD)
- Image (size TBD)

4) Video Clip Details
The video clip currently playing will display the following data:

If a DVD Title:

- Title
- Short description with character limit (TBD)
- "Buy" button linked to the product detail page
- Featured athletes – each name separated by a comma

If a live event:

- Event title
- Short description with character limit (TBD)
- Event start and end dates

If an athlete clip:

- Athlete name (linked to athlete detail page)
- Short description with character limit (TBD)

5) Live Event Schedule
This space is dedicated to the Live Events. The next live event will be featured with dates, times, and a link to the event detail page (see wireframe "Live Event Detail").

Under the next live event, there will be a static schedule. Each event will have an image, event title, dates, and times. A link at the bottom of the live event schedule will take the user to the complete schedule of live events.

6) Email Newsletter
The user has the ability to sign up for the monthly newsletter by entering their email address and clicking "Subscribe."

After the user clicks, "Enter," a confirmation will appear within the box that states, "You have been successfully added, Thank You"

If the user is logged in, the email sign up box will not be displayed.

7) Tabbed Filter Navigation
The user will have the ability to view a list of athletes, events, or filmmakers by clicking the corresponding tab. Athletes will be sorted alphabetically with an option to view the "Top 20" or "All Athletes." A clickable alphabet for easy navigation will display at the top of the list. The events (see below) is sorted my date. The filmmakers tab is similar to the athletes, names listed in alphabetical order.

Notes

This live event scoreboard is for the NSL event only.

C/manager will manage this page for real-time updating by a studio411 staff member. The page will automatic refresh every minute to reflect content changes.

1) Ad Switch Space

The space within the dotted line represents the space in which will automatically toggle between an ad banner (size TBD). Cycle time is between the scoreboard and ad banner is TBD.

The user may select the "TEAM" tab to view team members for each team. A scrollbar will appear to maintain design layout. See example below:

SCOREBOARD TEAM

1) Product Detail

The product detail page will be the destination for all "Buy" actions. This page gives the user an opportunity to see available formats, prices, and descriptions.

A preview of the video will be playing on the right when the user comes to the page.

When the preview of the video is complete, the movie will return to the first frame. The user can click play to watch again.

2) Related Films and Athletes

There will be a list of related films and athletes below. The related films will be related by filmmaker.

If no related films are found, there will be a message stating, "There are no films relating to this filmmaker."

When the "Buy" button or the "more..." link is clicked, the page will refresh and the item will be displayed at the top as the product detail.

The athlete name will be linked to the athlete detail page (see wireframe "Athlete Detail").

1) News List

The right column will list all the available news articles. There will be 8 to 10 news articles listed depending on design layout. If there are more than 8 to 10 articles, pagination will be displayed and the top and bottom of the right column.

The ad banner will remain at the same location when paging through news items.

If the user is on the first page of news articles the "previous" link will be disabled. This will be similar for the last page, the "next" will be disabled if the user is on the last page of articles.

The main article detail will not change unless the user clicks a new article in the right column. **The user can navigate through articles without changing the main article.**

Card Type: Security Code:
Visa

Card Security Code

The card security code is a unique three or four-digit number printed on your debit/credit card. This number is not embossed on the card and hence not printed on receipts – making it difficult for anyone other than the genuine cardholder, to know it. Some card issuers refer to this number as the "Card Security Code" others as the "personal security code" and others as "Card Verification Value".

Some cards, have the three-digit card security code number printed at the top of the signature strip on the reverse of the card.

Others, American Express cards for example, have a four-digit card security code number printed on the front of the card, above the account number.
